## A "JACK SOCIAL"

How Maui People Amuse Themselves.

The Mott-Smith Party Return from the Crater of Haleakala—Doings on Maui.

MAUI, Sept. 2, 1899.—During last evening, the 1st, at the Pala residence of Mr. D. C. Lindsay, the Y. P. C. E. Society of the Makawao foreign church gave an entertainment uniquely termed a "Jack social." The name is in some degree a misnomer for the program consisted of a geographical game, a "slip hunt," in addition to the tableaux of the ten Jacks mentioned in story and song, viz: Jack Sprat, Jack, the Giant Killer, Jack in the pulpit, etc. The game in geography was played by each guest wearing some object which suggested a geographical place, the person making the largest number of successful guesses winning a prize. The "slip hunt" was very amusing in as much as it kept each member of the party in motion, "upstairs, downstairs, and in my lady's chamber"—seeking ten slips of paper; the first slips being distributed at the start and each slip bearing written directions as to the location of the next one in order. The tenth one brought every person to the pantry for refreshments—a lady and a gentleman being summoned to places in direct proximity. That the evening was most enjoyable goes without saying.

During the week Haleakala ranch has been holding a drive among the "paninis" of their Ku'a pastures where the cattle were all sleek and fat. The ranch has a much smaller number of cattle on their ranges than in former years.

During Wednesday, August 30th, the Mott-Smith party returned from a several days' camping tour in the crater of Haleakala. Two hundred photographs and sketches were taken during the trip and it is to be hoped that Harold Mott-Smith, the artist, will paint a picture portraying a sunrise or sunset on the summit of Haleakala. It has always been a matter of regret to Maui people that Tavernier never devoted his artistic genius to Haleakala.

During August 31st and September 1st the following visited "Craigielea" to view the "palace of the sun": Miss Hattie Coan and Raymond Coan of Hilo, Spencer Bowen of Honolulu, Wm. McClusky of Hilo, B. F. Beardmore of Honolulu, and Dr. von Hertz. The latter gentleman has been the guest of Manager W. J. Lowrie of Spreckelsville, while the others mentioned have been at Kawapae Resort, Makawao.

During Thursday, August 31st, the H. A. Baldwins returned to their Hamakua home after a long visit at Olinda house. The D. C. Lindsays will go to Olinda on the 6th.

Today Miss Muther and Kathrine and Lorrin Smith return to Honolulu after a two months' vacation on Maui.

During Wednesday, the 30th, Miss Charlotte Turner, principal of the Chinese Mission school, returned to Wailuku after a year's absence in the United States.

Mrs. A. M. Brown of Honolulu has been a guest at the Cornwell's, Waiakapu, during the week. She came from Hawaii on the Claudine of August 26th. Marshal Brown who came to Maui last night will return with Mrs. Brown to Honolulu this afternoon per steamer Maui.

Miss Hart of Oberlin is the new teacher at Maunaloa Seminary. She will come to Maui about the middle of the month.

Kahului—Arrived September 1st the barkentine John Smith, Anderson master, forty-five days from Newcastle. Cargo, coal.

Weather: Several days during the week have been extremely warm. Cooler, today and yesterday.

## ALL WILL GO TO MANILA.

Root disposes of a Rumor that Some Volunteers May Remain Here.

WASHINGTON, August 23.—"Every man enlisted in the ten provisional regiments just authorized will eat his Christmas dinner in Manila," said Secretary Root tonight. This effectually disposes of the rumor that some of the volunteers will be held to garrison interior posts in this country. The Secretary declined to discuss the rumor that Merritt will be sent to the Philippines or to make any statement about it whatever. He finally said any information of such a character would more properly come from the President.

The great success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made it standard over the greater part of the civilized world. For sale by all dealers. Benson, Smith & Co., Ltd., agents for H. I.

## QUEER REASONS.

A Kansas wife recently secured a divorce from her husband because, as solemnly set forth in her petition, "the defendant pinched the nose of this plaintiff, causing it to become very red, thereby causing the plaintiff great pain and anguish of mind."

An Ohio man has secured a divorce because, as he declared under oath, "the defendant pulled this plaintiff out of bed by his whiskers."

A henpecked husband secured a divorce in a Pennsylvania court because, in the language of his affidavit, "the defendant struck this plaintiff a violent blow with her bustle."

An Illinois wife secured a decree because her husband threw the baby at her when she hit him with a coal bucket for spitting on the stove.

A Connecticut man got a divorce on the ground that "the defendant would not get up in the morning, nor call this plaintiff, nor do anything she was told."

A decree was granted in a Massachusetts court because "the defendant keeps this plaintiff awake most of the night quarreling."

A Wisconsin man got a divorce because his wife kept a servant girl "who spit on the frying-pan to see if it was hot enough."

A Jersey wife secured a decision because "the defendant, the husband, sleeps with a razor under his pillow to frighten this plaintiff."

A Virginia woman was set free because "the defendant does not come home until 10 p. m. and then keeps this plaintiff awake talking."

A Tennessee court liberated a wife because "the defendant does not wash himself, thereby causing the plaintiff great mental anguish."

In Illinois a decree was obtained because a long-suffering husband complained that "during the past year the defendant struck the plaintiff repeatedly with pokers, flat-irons and other hard substances."

In Minnesota a decree was given to a wife because "the defendant never cuts his toe nails and, being restless in his sleep, scratches this plaintiff severely."

Hives are a terrible torment to the little folks, and to some older ones. Doane's Ointment never fails. Instant relief and permanent cure. At any chemist's, 50 cents.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plows, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.
